## **DETAILED ACTION**

### ***Response to Amendment***

Claims 1, 4 and 6 are amended.

Claims 3 and 7 are cancelled.

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: it appears that there is a typo in line 11 where "to the main guard" is written repeatedly. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, in line 16, "is difficult to be displaced or deformed" - is not clear. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claims 1, 2 and 4-6** are rejected under 35 U.S.C. 102(b) as being anticipated by Nagano (US 4,604,078).

Regarding **claim 1**, Nagano discloses a transmission (figs. 1-5) for a bicycle for re-installing a chain (C) in a front chain wheel (FG) provided with two or more sheets of gear plates (FG1, FG2 and FG3) in the lateral direction of the bicycle and comprising; a main guard (9) for shifting the chain from a middle diameter gear (FG2) to a large diameter gear (FG3), and an auxiliary guard (12) for shifting the chain from a small diameter gear (FG1) to the middle diameter gear (FG2), wherein the main guard (9) is pivotally supported by a link mechanism (2, 5 and 6) for moving the guard in the lateral direction of the bicycle (figs. 4 and 5), and the auxiliary guard (12) is secured in such a manner that the auxiliary guard (12) is elastically displaceable (see figs. 4 and 5) with respect to the main guard (9) in back of a center of a seat pipe (S) in a longitudinal direction of the bicycle where a lower end portion of the auxiliary guard (12) pressing the chain (C) is difficult to be displaced or deformed when the chain is shifted from the small diameter gear (FG1) to the middle diameter gear (FG2).

**Re-claim 2**, see the radially movable main (9) and auxiliary guards (12).

**Re-claims 4 and 6**, see the auxiliary guard (12) is secured to the main guard (9) by a pin (7).

**Re-claim 5**, see a displaceable elastic body auxiliary guard (12).

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-2 and 4-6 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
